The WRX rolled out with 2.0-litre 215hp turbocharged boxer engine, powering all four wheels via an open differential at the front and a limited-slip differential at the back. Along with the change in styling in 2003, Subaru also gave the WRX more oomph. Power was now at 222hp and the WRX STi joined the range. The STi produced 265hp and had a strengthened six-speed manual gearbox instead of the ...
