A researcher is investigating whether people can identify whether a glass of water they are given is bottled water or tap water. She suspects that people do no better than they would by guessing.

Twenty people are selected at random; thirteen make a correct identification. She carries out a hypothesis test.

Friday 24 May 2013 – Morning

Our Technicals qualifications in Business Administration introduces students to key aspects of the role of a business administrator. Students develop relevant business and transferable skills through hands-on experience, preparing them for further study or the world of work.
