## *Manufacturing - Visual Management 5s A Visual Control System*

Visual management, or visual control, can help create a solid foundation for 5S projects. The philosophy of 5S represents a way of thinking to better organize and manage workspace, specifically by eliminating the eight wastes as defined by the Lean Manufacturing system. Managing a workspace includes communicating expectations, information, standards, or warnings through visuals like colors, words, pictures or symbols.

The 5S process and implementation of visual controls are a low cost, proven approach to getting the workplace back in control and keeping it that way. Following the process of 5S will clarify for your existing processes what is needed where and when, and visual controls will give the process a way to communicate – to tell you whether things are as they should be. 5S is typically where process improvement begins, because it involves employees who are directly involved in the process to ...
