If a and b are integers such
that $a \neq 0$, then we say
" a divides b " if there exists
an integer k such that $b = ka$.
If a divides b , we also say

Access Free A Friendly Introduction To Number

"a is a factor of b" or "b is a multiple of a" and we write $a \mid b$. If a doesn't divide b, we write $a \nmid b$. For example $2 \mid 4$ and $7 \mid 63$, while $5 \nmid 26$. Example 3.
