## **Algebra 2 Name:**

Just as the polynomials are analogous to the integers, rational functions are analogous to the rational numbers. We will learn more about this analogy as we rewrite various rational expressions, and also think about their graphical behavior.

A diver is standing on a platform and jumps from the platform. The equation  $h = -16t^2 + 24t + 8$ , where  $h$  is his height above the water,  $t$  is the time. How long will it take for him to hit the water?
