A management career path is not a straight line, nor is it the same for everyone. However, they all have a starting point and milestones along the way. Each path leads managers to what they need to know based on where they are in their careers and where their interests lie. Among the many potential starting points and milestones are five levels of management.

Production management, also called operations management, planning and control of industrial processes to ensure that they move smoothly at the required level. Techniques of production management are employed in service as well as in manufacturing industries. It is a responsibility similar in level and scope to other specialties such as marketing or human resource and financial management.
