Catastrophe Management Solutions Reviews

But no-one was concerned about this at the World Economic Forum, where the main worries were environmental management, social justice and governance (ESG) and climate change. As this was occurring, ...

Disaster politics: Why the world was slow to react

Media, particularly TV, continue to underplay the climate story, regarding it as too complicated, or disheartening, or controversial.

Point of View: Why can't we call the growing threats from the warming climate 'an emergency'?

By focusing the climate fight on what we emit, not what we consume, we are destined to fail—net-zero emissions policies aren't enough to prevent catastrophe.

Humanity's #1 environmental problem is consumption—climate change is just one of the byproducts

The record heat waves and storms of 2020 confirmed what scientists have long predicted: Climate change is underway and threatens unparalleled catastrophe. And because carbon dioxide traps heat in ...

Why Can't We Call It an Emergency?
