the clinical child interview - don-simmonds.co.uk

To obtain a child ' s perspective during a mental health assessment, he or she is usually interviewed. Although researchers and clinicians generally agree that it is beneficial to hear a child ' s account of his or her presenting issues, there is debate about whether children provide reliable or valid clinical information during these interviews.

Clinical Child Psychology Interviews with children about

The child interview is designed to elicit information about the child's own understanding of the problematic behavior. The clinician is also interested in learning what the child thinks causes those problems. The interview will typically
