Bats are the most significant predators of night-flying insects. There are at least 40 different kinds of bats in the U.S. that eat nothing but insects. A single little brown bat, which has a body no ...

What do bats eat?

This value does not, however, take into account the volume of insects eaten by bats in forest ecosystems and the degree to which that benefits industries like lumber. It also doesn't take into account ...

Why are bats important?

The book was the work product of our first two executive directors, Ellen Campbell and Jill Wright, and our first Coleman intern, Jill Moore. And for more than fifteen years it has served as a ...
