Configuration document-PI Sheet | SAP Blogs

PI Sheets in general can be used to describe the total production process or a part of it. The PI sheet is used to inform the process operator about the individual production steps that need to be performed. Apart from control information, the PI sheet can contain input fields and pushbuttons.

A Beginner ' s Guide To PI sheets | SAP Blogs

Before starting Proxy configuration in ECC back-end system and PI/PO, you need to make sure these prerequisites are fulfilled. First, check if the SAP ECC system is registered in SLD. Then, make sure the SLD RFC destinations are maintained correctly in the SAP back-end system. Last but not least, SICF settings
