Using brilliantly simple logic that illuminates the universal truths in common emotional challenges, Emotional Equations offers a way to identify the elements in our lives that we can change, those we can't, and how to better understand our emotions so they can help us . . . rather than hurt us. Equations like "Despair = Suffering - Meaning" and "Happiness = Wanting What You Have ÷ Having What You Want" have been reviewed for mathematical and psychological accuracy by experts.

Amazon.com: Emotional Equations: Simple Truths for ...

Happiness = reality / expectations. or if you are more pessimistic: Disappointment = expectations / reality. That is, if you had high expectations but reality was much lower, you would have a low level of happiness (or a high level of disappointment). This basically sums up my feeling for this book.

Chip Conley - Wikipedia

Over several careful readings and countless hours of rigorous reflection, Conley was able to "distill its wisdom down to a simple equation: Despair = Suffering - Meaning." That "little mental rule of thumb" became his "lighthouse." He turned his life around and that, in turn, enabled him to turn his company around.
