Since 2014, the facility has allocated US\$16 million for technical assistance that has supported about US\$9.6 billion of World Bank development financing.

Energy Subsidy Reform | ESMAP

Five key lessons emerge. First, energy subsidies often follow a life cycle, beginning as a way to stabilize prices and reduce exposure to price volatility for low-income consumers. However, as they grow in size and political power, they become entrenched. Second, subsidy reform strategies vary because the underlying political economy problems vary. When benefits are concentrated, satisfying or isolating interest groups with alternative policies is an important condition for effective reform.
