...

How savvy are you about how your car engine works? Take this quiz to find out! Many people know very little about how their car engine works. Other than the benefit of turning the key and pushing on the gas and making the vehicle go vroom, most of us are blissfully ignorant about what makes things work under the hood (until the check engine light comes on, of course).

Car Engine Quiz! | Zoo

Question by author amank2. Answer: 1. Skarloey is the oldest engine on the Island of Sodor. He is a narrow-gauge engine, and works for the Thin Controller. Because of his age, he has many stories to tell, and often reminisces with the other engines. He is the brother of Rheneas. His name means "Lake in the woods."
