ENGR 120 Example Homework Solution Assume the following problem was assigned for homework assignment #1. 5. For the circuit shown below, determine (a) the resistance R if the current supplied by the battery is 0.300 A . (b) the number of electrons that leave the battery over a 5 minute period assuming the current is constant.

REQUIRED FORMAT FOR HOMEWORK SOLUTIONS

Homework assignments must be stapled together for credit (no paper clips or fold-overs). The reading assignments are part of your homework and you will be responsible for this material on exams whether covered in class or not. Solutions to most of the homework problems can be found in the text or on Prof. Vable's website (also check the errata).
