The Duratorq DLD-418 is a 1.8 L (1,753 cc) intercooled common rail diesel engine. It is completely unrelated to the 1.4/1.6 units, and is a development of Ford's 1.8 8v Endura-D engine that saw service through the 1980s and 1990s. However, Ford considers it part of the DLD family, as evidenced by the official "DLD" name.

"I'm considering changing our 2009 Ford Focus 1.8, which is still running well with 70,000 miles on the clock. It's used as the second family car mainly for local journeys of 15 to 20 miles but we also use it for long motorway trips.

~~Review: Ford Focus (2018) | Honest John~~

The engine line up remained unchanged and expansive: 1.4, 1.6, 1.8 and 2.0-litre normally-aspirated petrol engines were offered, along with the 2.5-litre turbo petrol from the ST and TDCi diesel units of 1.6, 1.8 and 2.0-litre capacities. The 1.6 TDCi engine powered the super-efficient EConetic models, which gained stop/start technology and sub-100g/km CO2 emissions at the end of 2009.

Ford Focus 1.6 TDCI engine: Found in the 2005 Ford Focus, this engine displaces 1.6 litres of fuel. This is a relatively low-powered engine, ideal for a smaller car. The TDCi (Turbocharged Diesel Common-rail Injection) specification indicates that the engine runs on diesel, injected from a common rail system that is designed to lower emissions.
