Blinking light is telling you that something needs immediate attention.

*Ford F150: Service Engine
Soon Light → Diagnosis ...*

Ford Check Engine Light (CEL), also known as service engine soon (SES) warning, will stay on if a problem has been detected by the On-Board Diagnostic System (OBD-II). Ford check engine light will turn on when you turn on the ignition under normal operation but should turn off and stay off once you start the engine.

Blinking (SES) light is an easy way for your Ford's onboard computer system to bring potential engine problems or failing parts to your attention. However, once you have had the repair completed, the light may not reset itself automatically. To turn the light off, you must perform a manual reset of your Ford's computer system.
