The Airbus A320 family consists of short- to medium-range, narrow-body, commercial passenger jet airliners manufactured by Airbus. The family includes the A318, A319, A320 and A321, and the ACJ business jet. The aircraft family can accommodate up to 220 passengers and has a range of 3,100 to 12,000 km (1,700 to 6,500 nmi), depending on model.

The entire A320 family lineup, including the unpopular A318? baby bus.’ Photo: Airbus. Before we begin, this article will focus more on the naming convention and the general system of identifying the various aircraft in the family. We’ll briefly touch on technical specifications, but it won’t be the bulk of information.

~~How Aircraft In The Airbus A320 Family Differ – Simple Flying~~

The Airbus A320 family are narrow-body airliners designed and produced by Airbus. The A320 was launched in March 1984, first flew on 22 February 1987, and was introduced in April 1988 by Air France. The first member of the family was followed by the longer A321 (first delivered in January 1994), the shorter A319 (April 1996), and the even shorter A318 (July 2003).
