One of the worst books I've ever read about game theory. No math. Just theory. My professor actually used it as a textbook for his class. At the end of the semester, nobody learned anything. Please, write a better book, Professor Dixit.

Amazon.com: Customer reviews: Games of Strategy

So far in my academic life, Games of Strategy has been the only textbook that I have read cover to cover and actually enjoyed. This book is a lovely introduction to the world of game theory. It is one of those subjects that, once you've learned it, you can't look at the world the same way again.
