GE is the same company with the same processes, almost same workers and branding, and in case you need to service your GE Range Model GE XL44 317B6641P001, you still have the same phone line and service point. The consumers will not see the difference, most of them don ' t even know that a Chinese company is behind the brand.

If you have a pilotless model, it uses a spark igniter to ignite the gas, which works in a combination with a spark switch (located on the burner gas valve) and a spark module. Because it is not simple to test these parts and find out which one is defective, we recommend to contact a professional appliance technician.
