From humble beginnings in 1967, JIMS® has grown into one of the industry leaders producing performance parts, accessories, tools, transmissions, and high-performance engines all aimed at enhancing the Harley rider's experience. Originally, Jim Thiessen worked as a machinist with the aerospace industry. As bikes were brought to the shop in the early days for repairs and mechanical problems, customers would come to Jim looking for hard to find parts, or higher quality American made parts.

And one of the most common areas of modifications to make is performance. Throughout Harley's history, their V-Twin mills have been modded to perform better by pro and garage builders alike. There are different levels of engine/performance upgrades. Four to be exact, which are referred to as Stages.
