In Excess: Studies of Saturated Phenomena is the third book in Jean-Luc Marion's phenomenological trilogy that includes Reduction and Givenness and Being Given. Marion renews his argument for a phenomenology of givenness, with penetrating analyses of the phenomena of event, idol, flesh, and icon. With an eye turned more explicitly than ever before to hermeneutical dimensions of the debate, Marion masterfully draws together issues emerging from his close reading of Descartes and Pascal ...

by excess of intuition. In order to establish it, I will concentrate my attention on the last type of saturated phenomenon, the face. The face shares the privilege of flesh: in the same way that the latter only feels in feeling itself feeling, the former only gives itself to be seen in seeing itself. But like flesh, the face becomes problematic ...

Castor oil is a vegetable oil pressed from castor beans. Castor oil is a colourless to very pale yellow liquid with a distinct taste and odor. Its boiling point is 313 °C (595 °F) and its density is 0.961 g/cm³. It includes a mixture of triglycerides in which approximately 90 percent of fatty acid chains are ricinoleates. Oleate and linoleates are the other significant components.
