## Atypical Populations

This paper is intended to provide a critical overview of

experimental and clinical research documenting problems in figurative language processing in atypical populations with a focus on the Autistic

Spectrum. Research in the comprehension and processing of figurative

# Online Library Language

language in autism  
invariably documents  
problems in this area.

Figurative language  
processing in atypical  
populations ...

Overview. This up-to-date presentation of language use and communication skills in atypical populations addresses questions on the essence of language,

# Online Library Language

how it is shaped by normal cognitive, perceptual and social constraints and how it can be rehabilitated when these constraints are abnormal. The author covers: the evolutionary continuity of language as seen in communication systems in other species; the structure, power and processing of signed

Language deprivation is

# Online Library Language

Processing In  
Atypical  
Populations  
Illustrated  
Edition

associated with the lack of linguistic stimuli that are necessary for the language acquisition processes in an individual. Research has shown that early exposure to a first language will predict future language outcomes. Experiments involving language deprivation are very scarce due to the ethical

# Online Library Language

controversy associated  
with it.

Language deprivation -  
Wikipedia

This book examines the  
available data from  
these "atypical"  
aphasics, asking  
whether what makes  
them different has a  
significant effect on  
language representation  
and processing in the

# Online Library Language

brain. Each chapter reviews literature pertinent to a given population and explores whether (and potentially how) these populations differ from the "typical" aphasic population.
