The Magic Lantern Guide is presented in a manner that  
genuinely helps the reader master the multiple settings  
required to sucessfully use this camera body. A digital SLR  
has many more adjustments for the user to master than  
does the equivalent film camera making fairly frequent  
referral to an understandable reference mandatory.

The magic lantern, also known by its Latin name lanterna magica, is an early type of image projector that used pictures—paintings, prints, or photographs—on transparent plates (usually made of glass), one or more lenses, and a light source. It was mostly developed in the 17th century and commonly used for entertainment purposes.
