In this lesson we'll establish how to present a compelling business case, using evidence to demonstrate a return on investment. The ability to do this is central to our demonstration of commercial drive. We'll consider how responding to an organisational requirement requires a planned, structured approach that demonstrates both the ability to meet the requirement and the value to the

organisation.

Lesson 5: Making the business case - CIPD People Profession

How you make those decisions determines whether your organisation succeeds or fails. At the heart of any sound decision is a business case that examines the options, marshals evidence and identifies the resources required and the benefits that might accrue.

MAKING THE BUSINESS CASE : HOW: How to Create, Write and ...

A business case is the justification for some activity (e.g. a project) undertaken by your organisation. It weighs up the timescales, costs and risks of doing the activity against the benefits to be gained. Think of it as weighing up the pros and cons and then taking a sensible decision.

How To Write a Business Case | Business Case Template ...

The purpose of the business case is communication. Therefore, each section should be written in the parlance of the intended audience. Moreover, it should only contain enough information to help decision making. When writing a business case keep the following in mind: Be brief and convey only the bare essentials. Make it interesting, clear, and concise

Economic analysis: Return on investment based on investment appraisal of options. Commercial approach: Derived from the sourcing strategy and procurement strategy.

What is business case? | APM

The first step in making a business case is to identify the business problem, need or opportunity to be addressed. This is a critical step and should be given careful thought as it sets the tone for the project and, if done correctly, provides a clear picture as to how the solution to the problem impacts the organization ' s needs.

business case could be a spoken suggestion.

What is business case? - Definition from WhatIs.com

A business case captures the reasoning for initiating a project or task. It is often presented in a well-structured written document, but may also come in the form of a short verbal agreement or presentation. The logic of the business case is that, whenever resources such as money or effort are consumed, they should be in support of a specific business need. An example could be that a software upgrade might improve system performance, but the "business case" is that better performance would impr
