The exact requirements of clean, cool and lubricating vary with the design and materials of the mechanical seal. For non-optimum conditions, piping plans provide a means of adjusting the seal environment. Since seal piping plans were developed, maintained and revised by the API, it would seem appropriate to include piping plans under the API 682 menu. However, piping plans are so important that having a dedicated menu seems more appropriate. Piping plans and their names/labels date back to ...
