## Mini Moto Engine Types

Most minibikes have a four-stroke engine and are chain driven. They are not to be confused with pocket bikes. There are many mini bike brands out there, with the "Doodlebug mini bikes" and the "Motovox mini bike" being two of the most common. They come from the factory with 2-2.5 HP engines, but

# Access Free Mini Moto Engine Types

Austin Motor Company 's small straight-4 automobile engine, the A series, is one of the most common in the world. Launched in 1951 with the Austin A30, production lasted until 2000 in the Mini. It used a cast-iron block and cylinder head, and a steel crankshaft with 3 main bearings. The camshaft ran in the cylinder block, driven by a single-row chain for most applications, and with tappets sliding in the block, accessible through pressed steel side covers for most applications, and with ...
