Improve Toyota Hilux Power and Fuel Efficiency - Hi Clone QLD  
More power and torque, better fuel economy. The global Jimmy interests us the most, and the big change is a 1.5-liter engine replacing the former model's 1.3-liter unit. It delivers 102 metric horsepower (100 bhp) at 6,000 rpm and 130 Nm (96 lb-ft) of torque at 4,000 rpm. Those are healthy increases of 17 hp and 20 Nm over the outgoing model, with Suzuki saying the driver now has more torque at all rpm.
