The service engine soon light is often mistaken for the check engine light. The check engine light is a light to warn you to a possible issue with your exhaust system or emissions system. The service engine soon light can come on for minor issues like a loose gas cap, or for more major problems such as possible engine failure. Your Service Engine Soon Light Should Not Cause You to Panic. The light does say service engine soon, but you may not necessarily have to make any major repairs soon.

**What Does the Service Engine Soon Light Mean on a Nissan??**

A check engine light can indicate a broad spectrum of problems with your 2009 Nissan Frontier. In some cases you need to pull over immediately to prevent damage while in others you merely need to tighten you gas cap next time you stop in order to reset the service engine soon light.

**Engine Light Is On- 2006-2019 Nissan Frontier—What to Do??**

A flashing check engine light is your Nissan Frontier's way of saying "I have a serious problem, don't ignore me". Most of the time, that serious problem is a misfire. This flashing light should not be ignored. When your engine is misfiring, it is dumping raw fuel into the exhaust.

**Nissan Frontier: Flashing Check Engine Light Diagnosis??**

My check engine soon light came on and the slip light came on. The engine was slowing down and the steering became hard. I opened the hood and checked the dipstick and there was oil but it smelled burnt. Its a 2005, Nissan frontier nismo. The truck runs still and turns on. Do I just need an oil change or is the problem more sever?

**frontier: My check engine soon light came on and the slip??**

Your Nissan check engine light should come on under normal operation when you insert the key in the ignition. After 5 seconds or once you start the engine, the light should turn off as long as no fault codes are present. If the check engine light stays on, the problem can be something as simple as a loose gas cap or a faulty oxygen sensor.

**Service engine soon light comes on— 2010 Nissan Frontier**

The "check engine" light comes on when the engine control unit or the transmission control unit has detected a fault in the engine or transmission system. If your "check engine" light is ON, the easiest way to diagnose this problem is to check your trouble code memory with an OBD2 scanner. The "check engine" light will not light up if there is a scheduled service; it will only occur when there is a problem with your engine.

**Service Engine Soon Light [How to fix it?] Meaning & Causes**

Nissan cars have become more technologically advanced in recent years. ECU (Engine Control Unit) computers are now an integral part of Nissan car design. The ECU constantly monitors and governs many functions, including the electrical and safety systems of the car, and engine management. When this unit detects a problem, the SES (Service Engine Soon) light on the dashboard turns on to indicate that there's an issue that needs attention.

**How to Turn Off a Check Engine Light on a Nissan | It??**

The Frontier is called Navara when sold in Europe. The engine is a 2.5-liter YD25DDTi diesel, with 142 hp (106 kW) or 172 hp (128 kW). The stronger version has 403 N?m (297 lb?ft) of torque. Suzuki sold a Frontier-based mid-sized pickup produced by Nissan North America at the Smyrna plant.[28] The truck debuted at the 2008 Chicago Auto Show as the Suzuki Equator.

**HOW TO RESET Nissan Frontier Maintenance Indicator Reminder**

Your Nissan vehicle comes equipped with a service light which reads "service engine soon." This light warns you that there is a problem with the vehicle's emissions control system. This system is very important as it regulates and controls the air to fuel ratio as well as a number of other vehicle functions.
