The Onan 3600 LP Generator meets National Park Service sound level rules of 60 dB (A) or less at 50 feet. Expect less than 70dB at 10 feet away—Installation typically lowers the actual sound level. Vibration isolation makes the Cummins Onan 3.6 LP Generator exceptionally smooth and quiet within the full housing.

I have a onan generator 3600 LP removed from a 2010 cougar travel trailer.

Generator only had 90 hours when removed. Has been stored Near ocean so there is a little rust but runs great. It is not currently hooked up to propane but we can hook a battery to it to show you that it turns over just fine. This is a great model that is strong enough to run AC and microwave.
