This 1970 Opel GT is owned by Brandon Sutton and was filmed at 2016 Goodguys Nashville Nationals competing in the autocross course. The video says the car runs a 6.0 L LSx V8 which means it's probably running a LS2 or iron-block LQ4/LQ9. From the video you can see the engine has been setup to run a carburetor.

A newly rebuilt and machined 2.0 Opel engine with the big valves would cost you about \$2500 from Opel GT Source, much less if you do a lot of the work yourself. But since you're a novice, I would suggest taking the short route and spending the bucks on an already made engine from the best people to get one from. Some of our best and most knowledgable guys, who've done countless hours of ...

The Opel GT is a front-engine, rear-drive two-seat sports car manufactured and marketed by Opel in two generations — separated by a 34-year hiatus. The first generation Opel GT (1968-1973) debuted as a styling exercise in 1965 at the Paris and Frankfurt motor shows. The production vehicle used mechanical components from the contemporary Opel Kadett B and two-door hard top bodywork by French ...
