~~P3 Mathematics — Equivalent Fractions — Paper Folding Activity~~

Then I have the students make fraction pieces with whole sheets of paper. I first have them get a piece of white paper (8.5 x 11) and then they write "Whole" on the middle. Then we take another colored sheet (any color) and fold that sheet in $\frac{1}{2}$ and we write $\frac{1}{2}$ on the sheet. We do this for all the fractions and then I introduce fraction strips. I have them show me various fractions with their fraction pieces or strips.

~~Paper Folding Fraction Idea — Teaching Activities, Lesson ...~~

Description of the Activity. Provide each student with a piece of rectangular paper. Fold the paper in half. After you have folded the paper in half, instruct students to do the same. Explain that a fraction is a part of a whole. You have divided a whole piece of paper into two equal parts. Instruct students to color one of the two equal parts.

~~Teach Equivalent Fractions Using This Simple Paper and ...~~

Equivalent Fractions Hands on Activity. Use a black permanent marker to label one paper plate 1 whole. Fold another paper plate in half, making sure the edges match. Crease the fold and then carefully cut along it. Label each portion $\frac{1}{2}$. To make your fourths, fold and cut another plate into halves.
