Asteroid news: Asteroid THREE times bigger than Big Ben to pass Earth To put that into perspective, an asteroid which passed Earth in 2016 had £3.7trillion worth of platinum. Now, the European...

[Asteroid news: ESA wants to MINE asteroids for the ...](#)

Currently, there a few ideas for mining an asteroid under consideration. These include snagging a rock and towing into a safe Earth orbit and sending out harvesting ships to chip off large chunks and return the asteroids to Earth for processing, bit by bit. For me, those ideas are plausible, but they’re also a bit dull.
