About | Hydroponics

Hydroponic growing methods combined with good greenhouse growing environment will significantly reduce plant stress and provide for a very healthy crop. This also reduces the need for agrichemicals or organic sprays. After each crop, the preparation and setting up of the next crop is quick and simple. ... Blog at WordPress.com. Post to. Cancel.

Growing Organic Vegetables via Hydroponics

Every year the club gets to tour the hydroponics facility at Phipps Conservatory. Mike Bechtel gave us an in-depth look at his operation, including a large scale NFT lettuce system and a smaller scale Ebb and Flow system for testing how different lights effect the growth of the tomatoes. We look forward to more collaborations with Phipps in the...

Hydroponics - University of Pittsburgh

Pitt Hydroponics Project Growth History Early 2000s, a graduate student at Pitt stumbled upon the topic of growing food hydroponically in Haiti and started a research on growing fresh produce in a country that imports half of it's food [1]. After the student graduated, the research continued on as a project under Engineers for a Sustainable...

Hydroponic Vending Machines-For me, the most awe inspiring use of Hydroponics I have seen has come from urban Japan, for whom the answer to a lack of growing space and a lack of fresh produce has seen the introduction of a handful of vending machines which grow their own fruit and veg.

June | 2013 | WHF Hydroponics

These were about \$15 dollars a piece including the totes from Walmart, the net pots from the hydroponics store, the hydroton they use, and the plant food (Miracle Grow). One system has tomatoes, and is using standard Miracle Grow at 1/4 strength. The other system has three kale plants using Miracle Grow at 1/2 strength.
