The exam may be waived if you have passed a written competency exam to practice in petroleum engineering as a registered, licensed, professional engineer. Only exams administered by Alberta (Canada), and all U.S. states (PE licensed) are accepted. University exit exams are not considered valid for the waiver.

~~Petroleum Engineering Certification Society of Petroleum ...~~

The Principles and Practice of Engineering (PE) exam tests for a minimum level of competency in a particular engineering discipline. It is designed for engineers who have gained a minimum of four years' post-college work experience in their chosen engineering discipline. The PE Petroleum exam is computer-based and administered one day per year. Like other PE exams with small examinee populations, this is a single-day testing event similar to the current pencil-and-paper exams.

The Fundamentals of Engineering (FE) exam is generally your first step in the process to becoming a professional licensed engineer (P.E.). It is designed for recent graduates and students who are close to finishing an undergraduate engineering degree from an EAC/ABET-accredited program. The FE exam is a computer-based exam administered year-round at NCEES-approved Pearson VUE test centers.

~~NCEES FE exam information~~

To become licensed, engineers must complete a four-year college degree, work under a Professional Engineer for at least four years, pass two intensive competency exams and earn a license from their state's licensure board. Then, to retain their licenses, PEs must continually maintain and improve their skills throughout their careers.
