(PDF) Public Policy and Program Evaluation

Written from a political science perspective, Public Policy and Program Evaluation provides an overview of the possibilities and limits of public sector evaluation. Evert Vedung examines evaluation as a mechanism for monitoring, systematizing, and grading government activities and their results so that public officials, in their future-oriented work, will be able to act as responsibly, creatively, and efficiently as possible.

Program Evaluation and Research Designs John DiNardo and David S. Lee NBER Working Paper No. 16016 May 2010 JEL No. C10,C50,C52,H00,I00,J00,J24 ABSTRACT This chapter provides a selective review of some contemporary approaches to program evaluation. One motivation for our review is the recent emergence and increasing use of a particular kind of "program" in applied microeconomic research, the so-called Regression Discontinuity (RD) Design of Thistlethwaite and Campbell (1960).

Program Evaluation and Research Designs

And in turn, the results of our evaluations and research help us lead and contribute to policy discussions and decisions about science learning and teaching around the country.
