The main components of security arrangement for the lab security include: A well defined security policy covering, access controls, admin controls and data controls A unified access control systems powered by the modern technologies should be in place A well studied CCTV surveillance system to secure laboratory internally and externally

Laboratory Security Systems and Policies | Kisi
As you'd expect, laboratory dress codes set a clear policy for the clothing employees should avoid wearing in order to prevent accidents or injuries in the lab. For example skirts and shorts might be nice for enjoying the warm weather outside, but quickly become a liability in the lab where skin can be exposed to heat or dangerous chemicals.
