Reflexology is a type of therapy that uses gentle pressure on specific points along your feet (and possibly on your hands or ears as well) to help you feel better. The theory is that this eases...

Reflexology Therapy for Stress, Anxiety, Pain, and Fatigue
Reflexology, also known as zone therapy, is an alternative medical practice involving the application of pressure to specific points on the feet and hands. This is done using specific thumb, finger, and hand massage techniques without the use of oil or lotion.

Reflexology - Wikipedia
Reflexology is based on the Chinese principle that certain areas on the soles of your feet or hands - known as reflex zones - containing millions of nerve endings, correspond to other parts of the...

Reflexology: what is it and what are the health benefits?
Reflexology is a technique that applies gentle pressure to your feet or hands to bring about a state of relaxation and help the body's own healing process. Reflexology works in a similar way to acupressure and acupuncture. It is thought that there are certain points on the feet and hands that correspond to the organs and glands in the body.

Reflexology | Complementary and Alternative Therapy ...
Reflexology involves applying pressure to and massaging certain areas of the feet, hands and ears. Its aim is to encourage healing and relieve stress and tension. This approach is based on the principle that certain areas of the feet - called reflexes - are linked to other areas of the body through the nervous system.
