The observation, identification, description, experimental investigation, and theoretical explanation of phenomena is all part of science. Nothing is immune to the scientific process: from charm...

Answers about Science

Science is all about asking questions, and some of the most interesting and thought-provoking questions come from the imaginations of children. They can be staring out of a window and then drop such bombshells as: "How much does the sky weigh?" The media often laments how few parents are equipped to answer these questions.
