*Amazon.co.uk:Customer reviews: Service Design: From ...*

As a new field, the definition of service design is evolving in academia. But in practice, service design is: The activity of planning and organizing people, infrastructure, communication and material components of a service in order to improve its quality and the interaction between service provider and customers. The purpose of service design methodologies is to design according to the needs of customers or participants, so that the service is user-friendly, competitive and relevant to the ...

*What is Service Design? | Designlab*

The general principles of service design are: Services should be designed based on a genuine comprehension of the purpose of the service, the demand for the service and the ability of the service provider to deliver that service. Services should be designed based on customer needs rather than the internal needs of the business.

*The Principles of Service Design Thinking - Building ...*

Service design is the activity of planning and organizing people, infrastructure, communication and material components of a service in order to improve its quality and the interaction between the service provider and its users. Service design may function as a way to inform changes to an existing
