SHL Numerical Answers

In a numerical reasoning test, you are required to answer questions using facts and figures presented in statistical tables. In each question you are usually given a number of options to choose from. Only one of the options is correct in each case. Test takers are usually permitted to use a rough sheet of paper and/or a calculator.

Numerical Reasoning | Example Questions | SHL Direct

The SHL Numerical Test is a major screening stage and it typically disqualifies around 80% of candidates. It is used to measure your ability to make quick and correct decisions using numerical or statistical data. Strict time limits, unfamiliar test structure and fierce competition trigger high levels of stress before the test.
