Killing Commendatore Review // Haruki Murakami **Haruki Murakami – Sleep by Ripe Time Sleep Haruki Murakami**
Haruki Murakami's Sleep is a short story from one of his other novels which was published separately. I haven't read The Elephant Vanishes yet (even though I will. I will read all of Murakami's eventually) so I can't quite frame the story in the original novel but, to me personally, Sleep felt pointless.

Famous postmodernist Japanese writer, Haruki Murakami, portrays in his short story, Sleep, the leading character's sufferings through a series of events that may well be regarded as the character's frustrations throughout time. The protagonist is submerged into a series of events with and without obstacles as well as emotions such as uncertainty, fear, and happiness in a routine, sometimes tedious, life, which eventually leads to an ambiguous end in the story.

haruki murakami - sleep This is a short story by one of my favourite authors, Haruki Murakami. I hunted it down to share it with my students, and in doing so had to spend a good deal of time editing down the previous transcriber's mistakes. I'm posting it here to share it in its more true (to the translation) form.

spoiler, hey, so sleep was one of the first Murakami stories I've ever read, and since I read it I can't seem to get it out of my head, but I'm confused by what Murakami is trying to communicate here I guess. My interpretation was that he's saying that wakeness is closer to death than sleep is, due to her disconnection from almost everything when she stops sleeping, and that the end scene in her car is a metaphor for her husband and son rocking the car, trying to rock her to sleep and bring ...

For me, it's the narrator of "Sleep," one of Murakami's finest short stories. "Sleep" was published in Japan in 1989. Jay Rubin's English translation was published three years later in The New Yorker. "Sleep" begins with the narrator's 17th day of inexplicable sleeplessness. She's a housewife in her thirties.
