Systematic Innovation: An Introduction to TRIZ (Theory of ...

Systematic innovation is the process of methodically analyzing and solving problems with a primary focus on identifying the correct problem to be solved and then generating innovative solution concepts free from mental inertia. Most people assume that innovation comes from a few exceptional people and on rare occasions.

[(Systematic Innovation : An Introduction to TRIZ (Theory ...

Systematic Innovation is a pretty good introduction to TRIZ. It's treatment of contradiction and ideality was adequate and the section of system modeling was quite good. While the chapters on problem formulation were a noble attempt they fell short of providing a roadmap to the application of TRIZ (a common failing in TRIZ books).
