operations or supervisory monitoring situations, the IP-2002 is an IP-based dispatch console in a familiar desktop telephone form factor. Dispatchers using the IP-2002 can initiate a crosspatch between the two lines, as well as inject audio into the crosspatch. A simple Ethernet connection places the IP-2002 on the network.

IP-2002 Telephone ip based console by Telex

The basic MS-2002 can communicate with two (2) intercom channels. This number can be increased by connecting optional EMS-4001 Expansion Stations. Each EMS-4001 adds four (4) addition channels, and up to four (4) of these expansion stations can be connected for a total of 18 channels. 7.
