Star Wars: The Rise of Skywalker hints at a possible answer to these questions. It reveals Palpatine and Darth Vader both possessed ancient Sith Wayfinders, devices that could be fitted into a starship's navigational console in order to help it fly to the legendary Sith stronghold of Exegol. This otherwise inaccessible world was concealed deep in the Unknown Regions, hidden within by a labyrinth of solar storms, rogue magnetospheres, black holes, gravity wells, and things far stranger.

text. Because James Luceno was offered the opportunity to write the lead-in book to the last "Celebrity Wars" movie, Maze of Evil, it appears just fitting that he compose the follow up to it. That follow up, Dark Lord: The Rise of Darth Vader, is better than Luceno's first publication, mostly because he leaves all the politics at the allegorical level.
