The World of Late Antiquity 150-750 by Peter R.L. Brown

Late antiquity is a periodization used by historians to describe the time of transition from classical antiquity to the Middle Ages in mainland Europe, the Mediterranean world, and the Near East. The popularization of this periodization in English has generally been credited to historian Peter Brown, after the publication of his seminal work *The World of Late Antiquity* (1971).

Late antiquity: the reconfiguration of the Roman world. The Roman Empire of late antiquity was no longer the original empire of its founder, Augustus, nor was it even the 2nd-century entity of the emperor Marcus Aurelius. In the 3rd century the emperor, who was first called princeps (["first citizen"]) and then dominus (["lord"]), became divus (["divine"]).

The World of Late Antiquity (000) - Douban

The world of 750 was radically different from the world of 250, and the legacy of the changes that had occurred is very much with us today — from European states tracing their origins to Germanic invaders, to the cultural divide brought about by the rise of Islam. Oxford University has over 90 senior scholars, and a very large number of graduate students, researching within the field of Late Antiquity, with specialisms that embrace all the disciplines, from Archaeology to Theology, and ...

In his second book *The World of Late Antiquity* (1971), Brown offered a radically new interpretation of the entire period between the second and eighth centuries AD. The traditional interpretation of this period was centred around the idea of decadence from a 'golden age', classical civilisation, after the famous work of Edward Gibbon *The History of the Decline and Fall of the Roman Empire* (1779).
