Trial Master File Reference Model

The TMF Reference Model is managed under the auspices of the Drug Information Association (DIA) Document and Records Management Community. The TMF Reference Model provides standardized taxonomy and metadata and outlines a reference definition of TMF content using standard nomenclature. The Model is not intended to be taken and used “off-the-shelf” but can be adapted to an electronic or paper TMF, and does not endorse, nor require, any specific technology for application.

Trial Master File Reference Model – (a DIA Document ...

The Trial Master File (TMF) Reference Model is a supported initiative of the Drug Information Association’s (DIA) Document and Records Management Community and represents a single, unified interpretation of the regulations and best practices related to Trial Master Files that would be accepted by all clinical trial stakeholders, with a view to be adaptable and adopted by any organization.
