In a previous article, I went over 14 examples of documentation mistakes you might be making.Today, I'm going to show you 10 examples of what makes great end user documentation. I should clarify that end user documentation does not serve the same purpose as technical documentation, so you shouldn't write them the same way.Technical documentation is meant to teach somebody everything there is ...

10 Examples of Great End User Documentation

The software developer knows more than anybody what makes the software work, but that doesn't mean the developer should write the guide. On the contrary, it is a distinct disadvantage. More important than a deep understanding of the inner workings of the software is an understanding of who the end user will be, what his educational level is, and how that end user will be using the software.
